Professional Brand Elevation

Our editorial team reimagines your brand story for a global luxury audience. Professional photography, compelling narratives, cultural positioning—the work that typically costs \$10,000+.

Premium Audience Access

Direct access to a curated global audience of luxury consumers actively seeking independent, artisanal, and exceptional brands. Not casual browsers—intentional buyers.

Strategic Market Positioning

We position your brand within a curated community of exceptional independent creators. Association with Arahkaii becomes a mark of quality and authenticity.

Editorial & Marketing Work

Seasonal features, lookbooks, interviews, ARAH Magazine placement, social amplification. Professional marketing services you would normally hire a full agency to provide.

International Expansion Support

Entry into global markets (Asia, Europe, Americas). Brand positioning in international luxury segments. Exposure that would require years of independent marketing.

Community & Credibility

Arahkaii partnership acts as a third-party validation. When customers see your brand featured alongside other exceptional creators, trust and perceived value increase immediately.

Partnership Investment Structure

Arahkaii charges commission based on value delivered, not on competitive undercutting. Our commission reflects the professional

editorial work, brand positioning, audience access, and marketing services we provide.

STANDARD PARTNERSHIP TIER

15-18%

What's Included

- ✓ Quarterly editorial features
- ✓ Social media promotion

PREMIUM PARTNERSHIP TIER

Commission Rate

18-22%

What's Included

- ✓ Monthly editorial features
- ✓ ARAH Magazine cover stories
- ✓ Dedicated content strategy
- ✓ Influencer collaborations
- ✓ Direct account support

Why This Commission Reflects Value: A professional marketing agency charging \$10,000-50,000/month for brand positioning, editorial content creation, and audience access work is standard in luxury markets. Arahkaii's 15-22% commission translates this into performance-based partnership. You only pay when sales are generated. For most brands, this is 80-90% cheaper than hiring equivalent professional services.
